

Miles City Town & Country Club

Volume 4, Number 3

March 2021

Dear Town and Country Members.

Your club has been ramping up for another great year of golf and social activities. Warm weather is headed our way and people have been asking when and what they can do on the course. The following will be our tentative schedule. Presently you may walk the course and play to what temporary flags are out there. Once the frost has gone out of the ground and dried up, we will clean the greens up, open range and golf course to play and carts. Please police your course: Don't play the greens and no carts.

The board is currently in search for someone to take over the pro shop. We have conducted an interview and are waiting too here back from that individual. If you are looking for some pocket change or know someone that is, we will need new shop support and range pickers for the upcoming season. Contact Robyn at your convenience and we will get you information to the shop manager as he will be making all personal decisions for the shop. Deven Doughty is still in town and will be helping the club out until he leaves after graduation. (Thanks, Deven)

Kacie and Jim have been busy with the planning and running of some fun and exciting social events this last month and the months ahead. Valentines dinner was a great success with 33 couples attending and a waiting list for backup. The evening was filled with drinks, good food and a caricature drawing for each couple.

The County has updated its COVID-19 restrictions and the club can now have buffets at 75% of our capacity. This means that the Sunday breakfast is back on. Friday night dinners have become extremely popular and Leigh Rae is doing a fantastic job with staff and meals, so come out socialize and have dinner.

Upcoming events:
Friday night dining March 5th, 12th, 19th and 26th.

Sunday Breakfast Buffett: March 14th

St Patty's Day: March 17th Corn Beef and Cabbage \$15, Charcuterie Board \$15
